

“Profound Healing Keys from Mother Mary—the Rosary and the Science of the Immaculate Concept”

Mother Mary, the twin flame of Archangel Raphael, the archangel of the fifth ray of God’s healing, has profound keys for healing.

The Science of the Immaculate Concept

- The first is the science of the immaculate concept which teaches you to hold the image of perfection for your own perfect healing in the light. It can also be used by you for the healing of others.
- There can be profound healing by holding the immaculate concept
 - Our own mothers tend to do this for us
 - Their child is perfect
 - They love the child no matter what
 - Any problems are temporary—the child is covered with mud which can be washed off—you get the idea
 - Your Holy Christ Self also does this for you—holds the immaculate concept for you
 - Every master in heaven also does this for you—in fact at a certain level of consciousness the masters never even admit to themselves that any of us have left heaven
- Your body is a temple for the Spirit.
- It is a vehicle for our evolution in the journey of life.
- We cannot be over-attached to it or become slaves to its needs.
- One day we will no longer need the body and will lay it aside as an outworn garment.
- In the meantime, we need to take care of our body, because it is a faithful servant that serves us well.
- We all have a higher self—our I AM Presence, our Holy Christ Self and our body elemental—our personal guardian spirit who works with our body—all of these parts of ourselves know the unseen side of us very well.

- But we are the captain of the ship. Our body will out-picture that which we instruct it to do. It is assisted by the body elemental, our guardian angel and our Higher Self.
- Most people, instead of using the power to visualize in a positive way, they will use their inner sight to “awfulize”—to visualize negative things and imagine the worst. It’s a natural human tendency.
- But we need to understand that healthy thoughts and feelings are food for the soul. If we love our body, it will respond to love.
- Our Higher Self sees us as perfect and whole.
- Wholeness is a healthy way for us to see ourselves and is a part of the practice of good mind-body-spirit medicine.
- Our Higher Self can bestow the gift of clearer vision—physical, mental and spiritual vision.
- It does not mean that you ignore what is. It means that you see things as they can be. A powerful magnet to attract the same.
- The Divine Mother also holds the immaculate concept for each of our souls.
 - Mary or Kuan Yin or any of the Mothers East and West.
 - The Mother will never leave us as she finds us.
 - She sees what we can be and holds that immaculate concept for us to be who we truly are
- The immaculate concept is the image of you being perfect and whole in every way. It is the original divine pattern, the perfect design for you and your life.
- Blessed Virgin teaches a simple but effective spiritual technique to enable you to see yourself in the image of the divine perfection of your Higher Self. Mary teaches:
 - Our physical eyes are the windows of the soul.
 - They tell the story of our many past experiences, even as everything we have ever beheld is stored within our eyes.
 - She instructs us as follows:

Healing from a Spiritual Perspective Session 9

- Each day you can stand before your mirror.
- Pray and ask Mother Mary to purify all your past perceptions of your own imperfections.
- Then, after your prayer, look into your eyes in the mirror, and practice seeing your eyes as Mary does.
- Our eyes have been described by Mary as “blessed orbs of luminous beauty, veritable windows of the soul through which God can gaze joyfully upon all his creation.”
 - Daily practice seeing yourself and others as your Higher Self would see you.
- For Mary says, “what we see in others, appears more readily in ourselves.”ⁱ

The Rosary

- The rosary is a powerful and gentle healing tool. It is not just for Catholics. People of all walks of life can give the rosary and it has an action that is unlike any other.
- Mother Mary is a great healer. Although she is an angel, she has embodied on earth since ancient times. She was the hierarch of the vast Healing Temple on Atlantis.
- Mary tells us: “The world is in its infancy regarding the healing arts. In the healing temple of Atlantis over which I presided for a time, there was a greater manifestation of healing through the direct precipitation of the emerald ray than has yet been achieved through modern science, with all of the effort, and all of the expense.”
- “For healing requires the heart's devotion to Truth. Truth must be emblazoned upon the consciousness of those who would heal.”
- “Therefore angels of healing and members of the Brotherhood have bestowed the gifts of healing upon the humble of heart, and upon those who would apply themselves diligently to the science of healing.”ⁱⁱ
- Mother Mary is very close to us. She is not a distant Mother. She is someone we can talk to, someone who understands.

- Mother Mary has not forgotten what it is like to raise children and to struggle on this planet.
- She is so concerned that earth not have to pass through its darkest hours. ⁱⁱⁱ
- Mother Mary is revered even in heaven for her numerous attempts to intercede for this planet.
- Her rosary is like a magnet to pull down heaven’s intercession—we must not neglect it. ^{iv}
- The rosary gently raises the Mother light from the base of the spine chakra to the crown chakra. The Mother light is found in that base of the spine chakra. When this light is raised, then it is used to water all of the chakras for healing.
- The Hail Mary is the prayer to the Mother Flame for the raising of that light.
- “Hail Mary Full of Grace, the Lord is with thee, blessed art thou among women and blessed is the fruit of thy womb Jesus.”
- Then in the second half of the prayer, we differ from the traditional statement which says “Holy Mary, Mother of God, pray for us ***sinners***, now and at ***the hour of our death***.”
- The blessed Mother has asked us in these times to say instead, “Holy Mary, Mother of God, pray for us ***sons and daughters of God***, now and at ***the hour of our victory over sin, disease and death***.”
- Mary asks us not to affirm that we are sinners. Rather to identify ourselves as sons and daughters of God—holding the immaculate concept as it were.
- When we give the rosary, the violet flame is released at the same time
- The complete teaching on the rosary is given in the series of three books by Mother Mary through Elizabeth Clare Prophet called *The Golden Word of Mary* series.

 - b. *Mary’s Message of Divine Love*
 - c. *The Age of the Divine Mother*

- There are several different forms of rosary—the child’s rosary, the longer scriptural rosary and the surrender rosary.
 - The child’s rosary takes about 15 minutes to give and it is recorded on tapes or CD’s.
 - There is a series of hour long scriptural rosaries, one for each day of the week and they focus on the mysteries of God. The *Healing Mysteries* is given on Wednesday, the day of healing. It can also be given at any time.
 - There are also 45 minute evening rosaries. All of these are available on tape or CD.
 - There is a surrender rosary which takes about 45 minutes to give with the tape or less if you just give it yourself with the booklet. It is great if you are going through a difficult test. It helps you to surrender and to let go. The blessed Mother helps you to give it all back to God and then God gives you back what it is that you need to keep.
- When we give the rosary each day, the light goes forth from each one of us. This light then garlands or circles the earth.
- This living rosary is composed of every son and daughter of the Flame who daily consecrates his energies both in heaven and on earth in the ongoing service of Jesus and Mary.
- Mother Mary has said of the Rosary:

These are not words: these are the energies upon which the very salvation of the United States of America, this hemisphere and this planet rest. The garland of the rosary that you weave is the very rope of Almighty God whereby he intends to rescue earth. March 22, 1978
- As you say the rosary you can also touch or hold in your hands a set of rosary beads.

Use of the Rosary Beads

1. Hold the rosary and touch each bead as you say the verses, the Hail Mary’s and the prayers.
2. Charge each bead with love and devotion.
3. It is best to use natural quartz or semi-precious stones, rather than plastic or synthetics.
4. The light you invoke and which Mother Mary sends you is recorded in the crystalline structure of the gemstone.

Healing from a Spiritual Perspective Session 9

5. This builds a greater and greater momentum of light as you use your rosary daily.
6. Use the rosary while you give any of the decrees released through Mother and Mark.
7. Your rosary beads become a focus of the heart of the masters and of your love.
8. When you visit the sick or those passing from the screen of life, place your rosary on the heart of the injured or the ailing part of the body.
9. Call to Jesus and Mary for the fire of devotion from your heart in the rosary to be multiplied by their hearts for the healing of the loved one.
10. Use the rosary to send light to any place on the earth.

Mary says “Do Not Underestimate Your Prayers”

- Mother Mary has told us: “Some of you who have given decrees for many years are bearing, even this very hour a greater amount of density and substance of the world than you would even imagine.
- “But by your faithfulness to the ritual of decrees we are able to gauge from heavenly octaves what you will be able to bear, what you will be able to transmute of the burden of the world. As Jesus said, ‘my burden is light.’”
- The masters look for those who have the constancy of the emerald ray.... “When we see that week after week, day after day the sacred ritual is fulfilled, and that the devotee will come before his altar however humble to make intercession through the holy rosary, through decrees, through prayer then we know that we may place additional weight upon the broad shoulders of that one.
- These are shoulders that are broadened by a sense of cosmic responsibility. We therefore place upon them:
 - a. The weight of the little children suffering in the ghettos and the slums of the world
 - b. The prisoners of war being tortured
 - c. The underground Christians who are giving their lives so that they might be counted among the Christians
 - d. Those who are standing up for Truth and for God
 - e. Those lifestreams who are prominent in the world in government and religion, in politics, in economics who have not the knowledge of the Law, but have the great courage of their convictions.
- The blessed Mother says, “I could tell you instance after instance where those of you who are gathered in this room have been given the burden to carry for a

world leader, a great figure who is holding the Light for the Brotherhood on the world scene.

- “In the quietness and humbleness of your abode and your service, as you have invoked the violet flame, you have carried the weight day after day for these individuals who are walking on the front lines of the battle.”
- “Many of these do not have either the time or the inclination to pray, and yet they are held in my heart, in the heart of God as noble souls who work the works of Christ on earth.”
- Mother Mary says “work with the angels of healing, with Raphael, and with me as you recite the sacred Rosary that is also the ritual of healing.”
- “Work with me as you give the *Jesus Watch*, another ritual of healing.” The *Watch with Me Jesus Vigil of the Hours* is a one hour service that “sets a geometric pattern each time it is given. It goes forth into the etheric belt, the mental belt, the astral belt and then coalesces in the physical body through the crystal ray, the crystallization, or the Christ-realization of mankind's consciousness.”^v
- The Jesus Watch is available on Tape and CD with an accompanying booklet. Jesus, Mary and Joseph are with us as we give this ritual each week.
