

Threefold Flame Studies

When you balance your threefold flame (and that sacred fire of the Divine Mother is the fount of that flame), then you will begin to see the size of your flame increase to one-eighth, one-fourth, one-half inch. And, finally, imagine yourself having increased your threefold flame to the height of an inch!

Well, beloved ones, there is so much cosmic energy in a balanced threefold flame that is even one inch in height that it can generate stupendous power to work change in your life, your family and your community. Truly, you cannot even begin to comprehend what a great God-gift it is.

when you increase the threefold flame, you are given extraordinary empowerment to vastly change situations of global proportions. And the outreach of that threefold flame that is one inch in height may span half the world itself-

Count for a Million

This magnetism of Divine Love in your heart is the key to the expansion of the threefold flame and to the chalice whereby all decrees of heaven manifest upon earth. You may then become like the yogis and the bodhisattvas, beloved, so aware of this divine grace of the Father/Mother God which flows instantaneously as you are seated to recite the divine decrees, to recite the Pearls of Wisdom which are our dictations. For when by Love you are seated in the lotus throne of the Eighth Ray chakra (the secret chamber of the heart) the flow of the Word through you then becomes the instantaneous physical manifestation.

Oh, follow the path of the Buddhas of the Ruby Ray! Follow the path of the Ruby Ray angels! Follow the path, beloved, of Sanat Kumara/Gautama/Maitreya/Jesus, each representing the octaves four whereby the descent of this heavenly fire can be complete. [<12>](#)

Blessed ones, one lifestream infilled in the four planes of being with this light of the Third Ray can count for a million and more who have not accomplished this.

And you must remember that as in every election the one vote [can make the difference, so it is that] the one individual moving for the Godhead may be that one. And we speak not only of numbers, yet indeed numbers do count. We speak, beloved ones, of the magnitude of your causal body. For some of you already count for ten, some count for a thousand, some count for a million because the cumulative Light of your causal body does shine and count for that many threefold flames in the heart of the earth!

Vol. 32 No. 13 - Beloved Cyclopa and Virginia

Sometimes it is a lonely, lonely path, beloved. But I shall comfort you in telling you that single individuals, solitary climbers on the path to eternal Life, have so embodied that will of God for the millions that they have counted for the millions. For, you see, one with the will of God is the empowerment.

Your Voice Counts for Millions of Souls

You cannot even imagine how there hangs in the balance this day the fate of earth's evolutions according to your own calls, which can be given unceremoniously at any moment of the day or night. It can simply be a quick call to me, to the God flame, to Godfre: "Lanello, set them free! Lanello, take my causal body, and go forth and challenge the evil and the fallen ones who are taking over the governments of the nations and who are invading the laboratories of science to pervert the health and the structure of the body temple."

Beloved ones, every prayer is answered. Remember this: the fervent, effective prayer of that righteous man availeth much,⁴ because you have purity of heart and a fountain and a flowing. And by all of your decrees and your dedication, you reach the very heights of heaven with your single prayers and your devotions. And as you are on the way of balancing karma, you are in a very good situation with the Lords of Karma because you represent the remnant upon earth who are turned around and heading back to the Source. And therefore your voice counts for millions of souls.

Each one of you must consider yourself an ambassador to the courts of heaven for 100 million lifestreams on earth. And you must expand your consciousness to realize that whether you are nine years old or eleven years old or thirteen or five or of any age whatsoever, your calls count for 100 million souls.

You should see how the angelic hosts gather for the children's decrees at Montessori International. You should see how they come to your tag sessions⁵ and to your homes across America. Why, I tell you, you ought to have the vision given by the prophet to his servant to see the hosts of the LORD upon the hillsides.⁶
